

## Calculating your GPA

1. List all your courses in the left column
2. List the credits for each of your courses in the next column
3. List your grade for each course, predicted or actual, in the next column
4. Multiply the credits for a course times the numerical equivalent of the letter grade

<b>Course Name</b> <b>(i.e., PSYCH)</b>	<b>Credits</b> <b>(i.e., 3)</b>	<b>X</b>	<b>Grade</b> <b>(B=3.0)</b>	<b>=</b>	<b>Grade Points</b> <b>(i.e., 9)</b>
--	------------------------------------	----------	--------------------------------	----------	---

**Total Credits:** \_\_\_\_\_

**Total Grade Points:** \_\_\_\_\_

5. Total Credits for all courses
6. Total Grade Points for all courses
7. Divide the Total Credits into the Total Grade Points. The answer is your semester GPA  
**(Total Grade Points/Total Credits) (i.e., 45 Grade Points/15 Credits = 3.0 GPA)**
